

# Story Infinity:National Friends

*It was a pitch black night in Raleigh, North Carolina November 12,2018. I'm a regular 12-year-old 7th grader walking home from school. There were no street lights on in the whole neighborhood. The full moon was the only thing that lit my path home I heard a strange sound behind me as I walked so I picked up the pace but the noise was getting closer Finally,I reached my house and ran up the porch steps. As I grabbed the doorknob and pushed open the door to safety,I turned around and saw it!*

*I nearly screamed when I saw her. The creature looked mostly like a woman but everytime she breathed I saw little puffs of smoke go out of her mouth. Her lips were different colors. The top lip was yellow and the bottom one was blue. Her skin was normal and tan. Her eyes were also normal but her eyebrows were mismatched. The right one was green and the left one was purple. The curly hair was about a foot long and the right side was purple and the left side was green (the opposite of the eyebrows). Her shirt was mostly a really,really light pink so light that I could barely see it. There was what looked like a logo. It was a circle with a blue W and filling in the rest of the circle was green color and it looked like it was dripping green slime except the slime wasn't moving. Her skirt was a light, light purple. (She looked like a weird woman so I decided to call her that).*

*I ran straight up the stairs at about 35 mph. I tried to get up as fast as I could because she had looked hungry. At the top of the stairs I immediately turned right and raced to my sister's bedroom. Then I quickly shut the door and got a big green blanket and a big green flat wooden item. After that I jumped out the window as I heard the creature come in.*

*I think she saw me because she jumped out the window after me. By the time she got down I had already taken shelter behind a bush. Then I came out and started waving the flat, green, wooden thing at her and she ran off the street fast. About a month later, I heard on the TV news that the same monster had been seen in a home in Delaware. I wonder if I'll hear about it from Ben in our next meeting in Juneau.*

*Anna*
